

THE WORLD OF OUTDOOR SAUNA

red dot Design Award Winner 2024

BARRICANE

The new BARRICANE outdoor sauna has been beautifully designed with an elegant wooden facade, made from durable Tyrol wood cladding. It has a stylish overhang that offers shelter from the rain while enhancing the sauna's aesthetic and is both functional and beautiful.

Thoughtfully equipped with a convenient hanger for your bathrobe or clothes, it combines style with practicality. Step into the inviting warmth of our BARRICANE sauna, where relaxation for your body and peace for your mind await. A special footrest allows for a semi-reclining position on the upper bench while also serving as a secure step for ascending and descending.

With no compromises on quality - the solid aluminium doors combined with a stable frame and precisely engineered closure, ensure durability and seamless functionality.

Dimensions	227 x 220 x 230 cm
Variants	Centre entrance
Glazing	Front side single glazing 8 mm, transparent glass
Door	Aluminium frame, single glazed, transparent glass
Flooring	HPL
Interior wood	Rustic Tyrol wood cladding, heat treated and brushed

Control unit	Digital touch control panel Harvia
Colour light therapy	LED RGB under the bench and behind the backrest, includes remote control
Heater	Harvia 9 kW wall heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror, parsol grey, parsol dark grey

CLOVELLY

Introducing your new garden oasis: CLOVELLY - The outdoor sauna. Designed with simplicity in mind and no compromises on style or functionality.

This compact sauna boasts a sleek single-glazing design and touch control for ease of use. With customizable options like dark, mirrored, or transparent glass and a choice of wooden or aluminium facade, CLOVELLY can be tailored to perfectly match your garden aesthetic. A special footrest allows for a semi-reclining position on the upper bench while also serving as a secure step for ascending and descending. There are no compromises on door quality either, solid aluminium doors, a stable frame and precisely engineered closure ensure durability and seamless functionality.

Elevate your outdoor space with Clovelly - a blend of modern elegance and thoughtful craftsmanship, designed to bring tranquillity right to your backyard.

Dimensions	227 x 208 x 230 cm

Colour light therapy	LED RGB under the bench and behind the backrest, includes remote control
Heater	Harvia 9 kW wall heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror, parsol grey, parsol dark grey

INSTOW

Introducing the timeless INSTOW, the oldest sauna model in the range that continues to captivate and delight customers.

The clear glass exterior artfully reveals the enriched interior, creating an immersive and inviting experience. Classic wood options provide a touch of traditional warmth, and the flexibility to choose among various heaters and infrared radiators allows for a personalised sauna experience. The crowning jewel of the INSTOW is its expansive roof window, a feature that bathes your relaxation haven in natural light during the day. As the sun sets and night falls, this window transforms into a portal to the cosmos, offering a breathtaking view of the stars. Is there anything more romantic than unwinding in your favorite spot, surrounded by the soothing warmth of the sauna, while gazing at the celestial wonders above?

Dimensions	240 x 230 x 235 cm
Variants	Left or right versions
Glazing	2 sides glass, double glazed, transparent glass
Door	Aluminium frame, double glazed, transparent glass
Flooring	Tiles
Interior wood	Rustic Tyrol wood cladding, heat treated and brushed

Heater	Harvia home 11kW heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror, mirror+, parsol grey, parsol dark grey

SAUNTON

Outdoor saunas with glass fronts offer a liberating experience, allowing you to connect with nature as you unwind. You can gaze out over your garden, observe birds or marvel at a starlit sky, all while enjoying the peaceful atmosphere of the sauna. Mirrored glass offers other advantages: it reflects the green of the surroundings and blends the cabin harmoniously and almost invisibly into the garden. It also prevents a direct view into the interior of the sauna during the day. And at night when the light is dim, the view of the interior is greatly reduced and allows for relaxed sauna use.

The balance between wood and glass guarantees a pleasant sauna climate. All glass viewing elements consist of 2 x 6 mm ESG thermal glass – the glass panelling behind the wooden wall is made of hardened 8 mm ESG safety mirror glass with a black enamel background.

reddot Desin Award Winner 2024

Dimensions	220 x 220 x 230 cm
Variants	Left or right version
Glazing	3 sides glass, double glazed, mirrored glass

Colour light therapy	LED RGB under the bench and behind the backrest, includes remote control
Heater	Harvia 9kW wall heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror+, parsol grey, parsol dark grey, transparent

SAUNTON XL

As with the SAUNTON the XL version offers the same advantages - it reflects the green of the surroundings and blends the cabin harmoniously and almost invisibly into the garden. It also prevents a direct view into the interior of the sauna during the day. And at night when the light is dim, the view of the interior is greatly reduced. The balanced ratio between wood and glass elements brings a pleasant sauna experience.

All glass viewing elements consist of 2 x 6 mm ESG thermal glass – the glass panelling behind the wooden wall is made of hardened 8 mm ESG safety mirror glass with a black enamel background. Listening to customer feedback led to the development of the popular SAUNTON sauna. Adding anterooms, canopies and wind-resistant walls - the SAUNTON XL was created.

Dimensions	300 x 220 x 235 cm
Variants	Left or right version
Glazing	3 sides glass, double glazed, mirrored glass
Door	Aluminium frame, double glazed, mirrored glass

Infrared heaters	Up to 2 pieces, as an option
Optional glass types	Mirror+, parsol grey, parsol dark grey, transparent

WOOLACOMBE

WOOLACOMBE sauna - meticulously crafted to deepen the connection between body and soul while immersing you in the natural beauty of your garden surroundings. The innovative design of our classic mirror glass sauna, WOOLACOMBE, offers a breathtaking 180-degree panorama, creating an unparalleled sense of freedom. The mirrored glass not only reflects the lush greenery but also ensures a discreet sanctuary, blocking views into the cabin. As daylight fades or night falls, the dimmable interior lighting further enhances the privacy within.

For those seeking alternatives, our panoramic sauna can be tailored with completely transparent clear glass or tinted options in grey or brown. Achieving a perfect balance between wood and glass, our design ensures a comfortable sauna climate. All glass viewing components are constructed with 2 x 6 mm ESG thermal glass, framed in sleek black enamel.

Dimensions	220 x 200 x 225 cm
Variants	Left, right, or centre entrance
Glazing	Front side single glazing 8 mm, transparent glass

Heater	Harvia 9 kW wall heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror+, parsol grey, parsol dark grey, transparent

PUTSBOROUGH

If limited space is an issue, the PUTSBOROUGH sauna has been designed to fit into smaller areas like balconies (provided the conditions are suitable). Unlike their larger counterparts, these saunas are tailored for 2-3 persons, offering an intimate yet spacious experience.

In addition to the standard configuration, we provide flexibility in door placements, glass types, and orientations, allowing customers to customise their sauna to suit their preferences and the layout of their outdoor space. Notably, the sauna's relatively lower weight makes it suitable for placement on areas that may not be as statically sustainable.

Experience the bliss of a smaller sauna without compromising on quality or comfort. Our PUTSBOROUGH saunas blend innovation, adaptability and a sense of freedom, ensuring a rejuvenating escape within the confines of limited space.

Dimensions	217 x 160 x 225 cm
Variants	Left, right or centre entrance
Glazing	2 sides glass, double glazed, mirrored glass
Door	Aluminium frame, single glazed, transparent glass
Flooring	HPL
Interior wood	Rustic Tyrol wood cladding, heat treated and brushed

Colour light therapy	LED RGB under the bench and behind the backrest, includes remote control
Heater	Harvia 9kW wall heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror+, parsol grey, parsol dark grey, transparent

CROYDE

CROYDE is a sauna masterpiece, a fusion of elegance and functionality. The exterior showcases a sophisticated dark grey glass adorned with a striking combination of decorative plates. The IPE vertical decoration, along with five alternative Fundermax combinations, adds a touch of contemporary luxury.

The meticulously crafted interior features Tyrol wood, offering a warm and inviting atmosphere. The sauna benches, constructed from thermo aspen, ensure a comfortable and relaxing experience. Should your preferences lean towards different materials, customisation is available upon request, allowing you to tailor the sauna to your unique taste. Designed with comfort in mind, this sauna is an ideal haven for 4-5 individuals. The thoughtful combination of materials creates a harmonious sanctuary for relaxation. With the opportunity for individual adjustments, we are committed to bringing your vision to life.

Dimensions	230 x 230 x 235 cm
Variants	Left or right versions
Glazing	2 sides glass, double glazed, parsol dark grey glass
Door	Aluminium double glazed, parsol dark grey glass
Flooring	Tiles
Interior wood	Rustic Tyrol wood cladding, heat treated and brushed

Heater	Harvia Virta 11kW heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror, mirror bronze, mirror+, parsol grey, parsol bronze, transparent

CROYDE XL

CROYDE XL reflects an aesthetic bond between glass and wood. The bronze mirrored glass facade merges sauna with any environment, and can complement buildings and surroundings of any kind. The thermal-glass is double glazed with low thermal conductivity, and combined with wood fibre insulation walls, ensures low heat losses, meaning there is much less energy needed to heat and maintain sauna temperature.

Interior rustic walls in combination with thermo aspen benches give a warm, cottage feel, large glass surfaces on the other hand provide a sense of openness. Built-in sauna equipment can provide a Finnish, BIO and IR sauna experience. A useful anteroom can be used as a changing, room or somewhere to rest between sauna cycles. The addition of modern WLAN sauna management features makes remote control simple and easy.

Dimensions	330 x 230 x 235 cm
Variants	Left, right or side door entrance
Glazing	3 sides glass, double glazed, parsol dark grey glass
Door	Aluminium frame, double glazed, parsol dark grey glass
Flooring	Tiles

Heater	Harvia Virta 11kW heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror, mirror bronze, mirror+, parsol grey, parsol bronze, transparent

ROCKHAM

Outdoor saunas with glass fronts create a real feeling of freedom. You can enjoy the view outside while taking a sauna, watch the birds in the garden or the clear starry sky while you indulge in peace and relaxation. Mirrored glass also offers other advantages: it reflects the green of the surroundings and blends the cabin harmoniously and almost invisibly into the overall ambience of the garden. It also prevents a direct view of the interior of the sauna during the day, and even at night when the light is dim, the view of the interior is greatly reduced and allows for relaxed sauna use.

The ROCKHAM sauna contains living elements of nature. You can equip the vertical garden on the side with your favourite flowers, or plant the spices you need for cooking or grilling in the garden. The built-in self-watering system will keep your garden alive even if you are away for a few days.

Dimensions	227 x 220 x 230 cm
Variants	Left, right entrance
Glazing	2 sides glass, double glazed, mirrored glass
Door	Aluminium frame, double glazed, mirrored glass
Flooring	HPL
Interior wood	Rustic Tyrol wood cladding, heat treated and brushed
Benches	Thermo Aspen
Backrest	Thermo Aspen
Control unit	Digital touch control panel Harvia
Colour light therapy	LED RGB under the bench and behind the backrest, includes remote control
Heater	Harvia Club 11kW heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror, mirror+ parsol grey, parsol dark grey, transparent

APPLEDORE

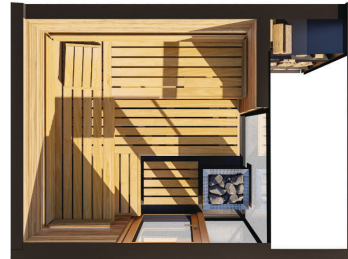

Re-imagining the look and functions of a traditional Finnish sauna, handmade from high quality materials with excellent insulation for energy efficiency. The asymmetrical gable roof is not only for an intriguing side profile, it also has a functional aspect distributing the heat towards the user and giving the possibility for a very large skylight. With the use of special dark grey mirror glass, the user is able to see outside from inside but not vice versa, which gives an even more relaxed feeling.

For a quick break and numerous health benefits, there is an ice bath addition with a smooth, automatic opening door. When entering the sauna, the user is greeted by the magnificent skylight stretching from the floor to the top of the ceiling. There's a beautiful stone accent wall illuminated by the atmospheric lighting which also accentuates the rising steam from the premium Harvia hidden heater. A height adjustable lounger with a flexible back support accommodates different sized users, for further comfort there's a leg rest in front of the benches.

Dimensions	XL 407 x 245 x 286 cm, standard 280 x 230 x 270 cm
Variants	XL and standard versions
Glazing	4 sides glass, double glazed, parsol dark grey glass
Door	Aluminium frame, double glazed, dark grey glass

Interior wood	Rustic Tyrol wood cladding, heat treated and brushed
Benches	Thermo Aspen, 3 levels, ergonomic lounger
Backrest	Thermo Aspen
Control unit	Digital touch control panel Harvia
Colour light therapy	Digital LED RGB under the bench and behind the backrest, includes remote control
Heater	Harvia Hidden 12 kW wall heater
Infrared heaters	Up to 2 pieces - full spectrum heater as an option
Optional glass types	Mirror, mirror+, parsol grey, transparent

HARTLAND

Introducing our outdoor sauna HARTLAND, a captivating blend of tradition and innovation, fuelled by the timeless and romantic energy source—wood. Choose between two distinct wood-burning heaters, each offering a unique experience of loading wood either inside or outside the sauna. Protected by a vast canopy, this outdoor sanctuary shields you from inclement weather. A spacious log wood closet ensures an ample supply of fuel.

The standard interior boasts Tyrol wood walls and Thermo aspen benches, but you can tailor these elements to suit your individual taste. The same flexibility extends to the choice of wood-burning heater, the incorporation of infrared heaters and the overall aesthetic of your outdoor retreat. For those who appreciate versatility, we offer a hybrid heating version. With an additional electric heater, you can seamlessly transition between the rustic charm of a wood-burning session and the convenience of maintaining heat with a 1-Phase electric heater. This hybrid mode provides the best of both worlds, allowing you to adapt your sauna experience to your preferences.

Dimensions	305 x 230 x 245 cm
Variants	Left, right
Glazing	2 sides glass, double glazed, parsol dark grey glass
Door	Aluminium frame, double glazed, parsol dark grey glass
Flooring	Tiles
Interior wood	Rustic Tyrol wood cladding, heat treated and brushed

Control unit	Digital touch control panel Harvia
Colour light therapy	LED RGB under the bench and behind the backrest, includes remote control
Heater	Harvia wood burning heater 20 kW + 6 or 9 kW electric heater (optional)
Infrared heaters	Up to 2 pieces - as an option
Optional glass types	Mirror, mirror+ parsol grey, transparent

LUNDY

In a garden where there never seems to be enough covered space for all your enjoyment needs, LUNDY provides the possibility for those extra comforts- a fridge, dining table or bar, the list is endless.

Originally 5.5 metres in length, our standard pool house can now be customised to create a room up to 12 metres long. We take pride in our flexibility and are committed to bringing your vision to life, creating the ultimate garden retreat for you to enjoy.

The front sliding doors allow for easy movement of large equipment in and out, while optional side sliding doors provide even more flexibility. Indirect lighting in the entrance area creates an intimate atmosphere. The floors can be heated, and IR heating can be installed on the ceiling. A recuperation supplies fresh air into the space. Various glass color options allow you to customise our product to your taste. Dimension changes for the entire structure are also possible .

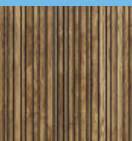

Dimensions	550 x 240 x 245 cm (standard)
